

WORTH COUNTY R-III REMOTE LEARNING - COVID HS PLAN

We have sent a survey out allowing us to determine who has the internet and who does not and who has devices and who does not. Those that do not have these devices will be mailed the assignments by a paper packet.

We will provide our students the opportunity to improve their grades and to hopefully prevent a slide and loss of knowledge. **These will not in any way be normal classes.** Dual credit courses will follow the policies of the universities. Students will have an opportunity to improve their grades through this work.

STUDENTS WITH NO INTERNET ACCESS

We will mail packets to those students that do not have internet access based on the survey. Packets will be returned to school on April 20th from 4-6 PM.

STUDENTS WITH INTERNET ACCESS

If a student has internet access, then they will need to check their school email account on Monday, April 6 for more details.

Stay safe,
Mr. Adwell

Summary of dates

April 6: On-line Google Classroom will begin or packets will be mailed. You will need to contact your students if you haven't already set your classroom up.

April 16 & 17: Teachers prepare the next two weeks for students without the internet. Packets prepared for parent pick-up.

April 20- First packets returned to school and the second packet picked up.
